## ***Lecture Series 2008-2009***

*Lectures will be held in CABM Seminar Room 010 unless otherwise noted*

October 16, 2008 – Waksman Auditorium

22<sup>nd</sup> Annual CABM Symposium

***“New Frontiers in Biomedicine”***

Wednesday, November 5, 12:00

**Leslie Vosshall, HHMI, Rockefeller University**

***“Genetics of Olfactory Perception: Flies, Mosquitoes, Humans?”***

Wednesday, December 3, 12:00

**Paul Bieniasz, HHMI, Rockefeller University**

***“Assembly and Release of Retrovirus Particles”***

Wednesday, January 14, 2009, 12:00

**Qiufu Ma, Harvard Medical School**

***“Molecular Control of Nociceptor Development and Pain Behavior”***

Wednesday, February 4, 12:00

**Martin Yarmush, Rutgers University**

***“Metabolic Engineering – Analysis in Traumatic Injury  
and Other Applications”***

Wednesday, March 4, 12:00

**Masayori Inouye, UMDNJ-RWJMS**

***“Single Protein Production System for Direct Analysis of Structure”***

Wednesday, April 1, 12:00

**Tom Muir, Rockefeller University**

***“Testing the Histone Code Hypothesis Using Chemical Synthesis”***

Wednesday, June 3, 12:00

**Miriam Meisler, University of Michigan**

***“Mutations in Endosomal-Lysosomal Trafficking and Neurodegenerative Disease  
in Human and Mouse”***

***Supported by Sanofi Aventis***
